

Fall 2011 Newsletter

Progress Report as of Oct 15th, 2011

Home #8

The house built at 1238 14th Street West was a project where Prince Albert Habitat for Humanity partnered with the carpentry class at Carlton Comprehensive High School to provide the basement and framing construction as part of their learning process. It is an exciting venture where the fundraising contributions from organizations such as yours can be combined with life skills training for young people in Prince Albert. This home is now COMPLETE. The family has moved in and final yard landscaping took place in late August.

The dedication ceremony took place on June 1st.

Home # 9 and #10

Prince Albert Habitat for Humanity is pleased to have accelerated our number of builds over the past two years. Our first duplex on 10th Street East was started on June 1st. The home is in the final stages of finishing with the new families scheduled to move in during October, 2011.

The landscaping will be completed in the spring of 2012.

Home # 11

September 1st, 2011 saw the second year of a joint partnership with Carlton Comprehensive High School and the start of construction of the 11th Prince Albert Habitat for Humanity home at 537 12th Street West.

The anticipated completion date is January 2012.

Home #12

A fourth project and one that is new to Prince Albert is the purchase and renovation of an existing home for occupancy sometime in the spring of 2012.

With the above projects, Prince Albert Habitat for Humanity will have provided homes for twelve Prince Albert families by the spring of 2012.

Prince Albert Habitat for Humanity continues to operate on a 100% volunteer basis with all of the money donated utilized in the construction of new homes for families in Prince Albert.
